

ENTERPRISE LICENSING

- > No royalties
- > No deployment fees
- > No per-server fees
- > Developers can use multiple machines
- > Perpetual license grant

Simple

Our licensing model is simple. There are absolutely no gotchas. Every component is licensed in exactly the same manner.

Scalable

Scale effortlessly as your usage of our controls expands. Enterprise licenses provide a unique “true-up” option that allows licenses to be added easily.

Huge savings over retail

Enterprise licenses offer major savings over retail pricing. With over 400 controls and frameworks, you will experience a very quick return on your investment.

Licensed for cloud deployment

If you are planning to deploy to the cloud, we have you covered. You can deploy to any cloud platform with no extra licensing costs.
