## **Installation**

To begin using the iTouchDS please visit <http://www.itouchds.com> to download the latest firmware. Once you have obtained the latest firmware simply unzip or unrar the file then drag and drop all the files onto the root of your MicroSD.

When all necessary files are transferred, insert the MicroSD into the back of the iTouchDS. Boot up the console the iTouchDS should be now up and running.

## **Main Menu**

On the main menu you will see three different icons:

iCard	• Browse through files on the MicroSD
-------	---------------------------------------

	<ul style="list-style-type: none"> <li>• Create homebrew and game shortcuts for iFav</li> </ul>
iFav	<ul style="list-style-type: none"> <li>• Navigate and run Homebrew or Games shortcuts</li> <li>• Manage shortcuts</li> </ul>
iGame	<ul style="list-style-type: none"> <li>• Run games</li> <li>• Adjust games setting</li> </ul>

### **iCard**

In this menu you will be able to create a shortcut for your favorite game or homebrew.

Create Shortcuts	<ol style="list-style-type: none"> <li>1. Highlight the Homebrew or Game icon you would like to create shortcut for.</li> <li>2. Press "X"</li> <li>3. On the top screen it will prompt: <i>Create "icon" for iFav? A-Confirm B-Cancel</i></li> </ol>
------------------	---

Once you have created your shortcuts press "B" to go back to the Main Menu.

### **iFav**

In iFav you may browse through quickly for all your favorite shortcuts that you have created from iCard. Also you will be able to delete shortcuts from the iFav menu as well.

Run Shortcuts	<ol style="list-style-type: none"> <li>1. Navigate to the shortcut icon</li> <li>2. Press "A"</li> <li>3. If you selected a game, on the top screen it will prompt: <i>Run game? A-Confirm B-Cancel</i></li> </ol> <p>Homebrew shortcuts will run without prompt.</p>
Delete Shortcuts	<ol style="list-style-type: none"> <li>1. Highlight the shortcut icon that you wish to delete</li> <li>2. Press "X"</li> <li>3. On the top screen it will prompt: <i>Delete? A-Confirm B-Cancel</i></li> </ol>

Press "B" to get back to the Main Menu.

In iFav you will also see a preset icon which is a shortcut for the language selector (iT\_Language.nds). You may launch it by hitting "A"

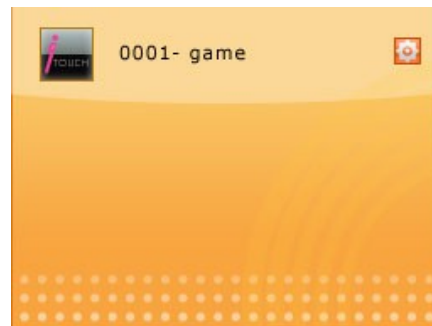

After selecting which language you which to use, you will be asked to reboot the system.

After rebooting the system should load the language you have selected.

## **iGame**
