Simplifies your work: Effortless and comfortable transmission of high torques thanks to T-handle with ComfortGrip.

Increases your efficiency: Integrated side drive for effortless fastening and unfastening of rusted or stubborn screws.

Lowers your costs: Highly durable thanks to high-quality, chrome-plated L-key surface to prevent corrosion.

Application: Allows user to apply high torques without tiring and undo and fasten rusted, glued or tightly fastened screws easily.

Blade: Chrome-vanadium steel, through hardened, chrome-plated.

The Wiha Comfort grip T-handle L-key with side drive is the tool to use when you need to apply high torques comfortably. Thanks to its ergonomic handle design with integrated soft zones, the T-handle is perfectly sized in the hand. Fewer pressure surfaces and less stress on muscles makes working with this tool a pleasure. Thanks to the one-piece blade, the integrated side drive is able to withstand maximum stress loads and enables users to undo and tighten screwed connections which have rusted, become stuck or fastened really tightly. The free hand resting on the handle ensures added stability, preventing the blade from slipping out of the screw head suddenly and thus protecting the screw and blade from damage.

For applications in mechanics
