

mikroC PRO for FT90x

PID: MIKROE-1728

Single solution for designing GUIs, coding the backend, compiling and debugging

With the integrated [Visual TFT](#) you can create amazing user interfaces, simply drag and drop visual elements and the compiler will generate the code for you. Save time and focus on making your graphic design the best possible.

Seamlessly switch between designing and coding using keyboard shortcut F12.

Manage all your data quickly and easily. Make the workspace comfortable and suited to your need. Use the default layout of the IDE, or arrange the windows manually. Navigate through all the projects you are working seamlessly and save time with the intuitive IDE of the mikroC compiler.

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.
 ISO 14001: 2015 certification of environmental management system.
 OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).

Specifications

| | |
|----------------------|---------------------------------|
| Architecture | FT90x (32-bit) |
| License type | Electronic (virtual),USB Dongle |
| Programming language | C |
| Silicon Vendor | FTDI |
