

Curriculum Vitae

Personal details

| | |
|------------------|--|
| NAME | Dimitris |
| SURNAME | Karlis |
| DATE OF BIRTH | 2 February 1971 |
| PHONE NUMBER | +30 210 8203 920 |
| MARITAL STATUS | Married |
| NATIONALITY | Greek |
| e-mail addresses | karlis@aueb.gr |
| URL | www.stat-athens.aueb.gr/~karlis |

Education

| | |
|-------------|--|
| 1988 – 1992 | BSc in Statistics, Athens University of Economics and Business (ASOEE) Department of Statistics (8.5/10). |
| 1994 -1998 | PhD in Applied Statistics and Computational Statistics (supported from the State Scholarships Foundation of Greece). Title: “ <i>Estimation and Testing Problems in Poisson Mixtures</i> ” Supervisor: Prof. Evdokia Xekalaki External Examiners: Sir David Cox Prof. Bruce Lindsay |

Scholarships

| | |
|-----------|---|
| 1992 | Erasmus scholarship for attending courses at the Dept of Probability and Statistics, Sheffield University, United Kingdom (one semester) |
| 1993-1998 | Scholarship from the National Scholarship Foundation for doctoral dissertation |

Working Experience and Research Projects

| | |
|-----------------------------|--|
| 1994 – 1998 | Tutor for several courses including: <ul style="list-style-type: none">• Pascal Programming Language• Introduction to Probability• Descriptive Statistics• Statistics (offered by the Dept of Economics)• Multivariate Statistics• Data Analysis• Sampling Techniques (offered by the Postgraduate program)• Statistical Packages |
| March 1995 – June 1995 | Data Research and Consulting: Statistical Analysis of a political survey concerning voting attributes of the Achaia territory |
| March 1997 – September 1997 | Centre of the Renewal Energy Sources: |

| | |
|--|---|
| September 1997-February 1998 | Statistical Analysis of fatigue loadings of a wind turbine Formation of the Educational Program of the National Statistical Office of Greece |
| January 1998- November 1998 | Integration of Statistical Software in Eurostat's Data Bases (SUP-COM 17) |
| September 1997-November 1998 | Responsible for organisational matters for the project "Professional Practice" of the Dept of Statistics, AUEB |
| January 2000 - | IST-99-1-1A – Proposal No 12134 : Extended Statistical Information System |
| October 2002 – February 2003 | VL-CATS Virtual Library for Computer Assisted Training of Statistics. Preparation of 'Data Analysis' course |
| March 2000- July 2000 | Visiting Lecturer, Dept of Statistics, Athens University and Economics. Courses taught: Multivariate statistical Analysis |
| September 2000 – July 2001 | Visiting Lecturer, Dept of Statistics, Athens University and Economics. Courses taught: Linear Regression Computational Statistics Estimation and Hypothesis testing Multivariate Statistical analysis |
| November 2001 – October 2004 | Lecturer Dept of Statistics, Athens University and Economics. |
| January 2003 – February 2003 | Visitor in the Dept of Business Informatics, Limburg Universitair Centrum; Belgium |
| November 2004 – December 2010 | Assistant Professor Dept of Statistics, Athens University and Economics. |
| December 2010 - today | Associate Professor Dept of Statistics, Athens University and Economic |
| January 2004 – May 2005 | Digital Era Statistical Indicators IST–2000–31083 |
| August 2006- September 2007 | Building the Intrastat system in Romania- Team Leader |
| November 2010- August 2012 | Analysis of the surveillance and monitoring data on zoonotic agents in EU |

Research Papers

Papers published

1. Karlis D., Xekalaki E. (1999) On testing for the number of components in finite Poisson mixtures. *Annals of the Institute of Statistical Mathematics*, **51**, 149-161.
2. Karlis D., Xekalaki E. (1998) Minimum Hellinger distance estimation for finite Poisson mixtures. *Computational Statistics and Data Analysis*, **29**, 81-103.
3. Karlis D., Xekalaki E. (1999). Improving the EM algorithm for mixtures. *Statistics and Computing*, **9**, 303-307.
4. Diamantidis N., Karlis D., Giakoumakis M. (2000) Unsupervised stratification of cross-validation for accuracy estimation. *Artificial Intelligence*, **116**, 1-16.
5. Karlis D., Xekalaki E. (2000) A Simulation Comparison of Several Tests for the Poisson Distribution. *Journal of the Royal Statistical Society Series D, The Statistician*, **49**, 355-382
6. Karlis D. and Ntzoufras J. (2000). On Modelling Soccer Data. *Student* ,**3**, 229-245.
7. Karlis D., Xekalaki E. (2001) Robust Testing And Diagnostics For Finite Poisson Mixtures *Journal of Statistical Planning and Inference*, **93**, 93-115
8. Dellaportas P., Karlis D. (2001) A simulation approach to hierarchical models. *International Statistical Review* **69**, 63-79.
9. Karlis, D. (2002) A general EM approach for maximum likelihood estimation in Mixed Poisson Regression Models. *Statistical Modelling : An International Journal*, **1**, 305 – 318.
10. Karlis D., (2002). An EM Type Algorithm for ML estimation for the Normal –Inverse Gaussian Distribution. *Statistics and Probability* **57**, 43-52
11. Karlis D., Xekalaki E. (2003) Choosing initial values for the EM algorithm for finite mixtures *Computational Statistics and Data Analysis*, **41**, 577-590
12. Karlis, D. Kostaki, A. (2002) Bootstrap Techniques for Mortality Models *Biometrical Journal*, **44**, 696-712.
13. Karlis D. (2003) An EM Algorithm for Multivariate Poisson Distribution and Related Models. *Journal of Applied Statistics*, **30**, 63-77.
14. Karlis, D., Saporta, G. and Spinakis A. (2003) A Simple Rule for the Selection of Principal Components. *Communications in Statistics- Theory and Methods*, **32**, 643 –666.
15. Karlis D., Xekalaki E. (2003) A Zero frequency alternative method to the moment method of estimation in Finite Poisson Mixtures, *Journal of Statistical Computation and Simulation*, **73**, 409-427.
16. Iliopoulos, G. and Karlis, D. (2003) Simulation from the Bessel distribution with applications. *Journal of Statistical Computation and Simulation*, **73**, 491-506
17. Karlis, D. (2003) Maximum Likelihood Estimation for Multivariate Shock Models. *Annals of the Institute of Statistical Mathematics*, **55**, , 817-830
18. Karlis, D and Ntzoufras, J. (2003) Analysis of Sports Data Using Bivariate Poisson Models. *The Statistician*, **52**, 381-393

19. Tsiamyrtzis, P. and Karlis, D. (2004) Strategies for efficient computation of multivariate probabilities. *Communications in Statistics – Simulation and Computation*, 33, 271 –293.
20. Brijs, T., Karlis, D. , G. Swinnen, K. Vanhoof and G. Wets and Manchanda, P. (2004) A Multivariate Poisson Mixture for Marketing Applications . *Statistica Neerlandica*, 58, 322-348.
21. Frangos, N. and Karlis, D. (2004) Modelling Losses using a Exponential-Inverse Gaussian Distribution. *Inurance: Mathematics and Economics*, 35, 53-67
22. Karlis, D. and Lillestol, J. (2004) Bayesian estimation for the NIG distribution *Applied Stochastic Models in Business and Industry*, 20,323-338.
23. Karlis, D. and Xekalaki, E. (2005) Mixed Poisson Distributions. *International Statistical Review*, 73, 35-58
24. Karlis, D. (2005) An EM algorithm for mixed Poisson distributions. *ASTIN Bulletin*, 35, 3-24
25. Ntzoufras, I., Katsis, A. and Karlis, D. (2005) Bayesian Assessment of the Distribution of Insurance Claim Counts Using Reversible Jump MCMC. *North American Actuarial Journal*, 9, 90-108
26. Karlis, D. and Meligkotsidou, L. (2005) Multivariate Poisson Regression with Covariance Structure. *Statistics and Computing*, 15, 255-265
27. Karlis D. and Ntzoufras J. (2005). Bivariate Poisson and Diagonal Inflated Bivariate Poisson Regression Models R. *Journal of statistical Software*, vol 14, issue 10.
28. Iliopoulos, G., Karlis, D. and Ntzoufras, J. (2005). Bayesian estimation in Kibble’s bivariate gamma distribution. *Canadian Journal of Statistics*, 33, 571-589
29. Karlis, D. and Ntzoufras, I. (2006) Bayesian analysis of the differences of count data. *Statistics in Medicine* 25, 1885-1905
30. Geurts, K., Wets, G., Brijs, T, Van Hoof, K. , Karlis, D. (2006) Ranking And Selecting Dangerous Crash Locations: Correcting For The Number Of Passengers And Bayesian Ranking Plots. *Journal of Safety Research*, 37, 83-91
31. Brijs, T., Karlis, D., van den Bossche and Wets, G. (2006) A Model for Identifying and Ranking Dangerous Accident Locations: A Case-Study in Flanders. *Statistica Neerlandica*, 60, 457-476
32. Karlis, D. and Meligkotsidou, L. (2007) Finite multivariate Poisson mixtures with applications. *Journal of statistical Planning and Inference*, 137, 1942-1960
33. Karlis, D. and Patilea, V. (2007) Confidence Intervals of the hazard function for discrete distributions using mixtures. *Computational statistics and Data Analysis*, 51, 5388-5401
34. Nikoloulopoulos, AK, and Karlis, D. (2008) On modeling count data: a comparison of some well known discrete distributions *Journal of Statistical Computation and Simulation*, 78, 437-457
35. Karlis, D., Rahmouni, M. (2007) Analysis of Defaulters' Behavior Using Poisson-Mixture Approach . *IMA Journal of Mathematics in Management* , 18, 297-311

36. Brijs, T., Karlis, D., Van der Bosch, P. and Wets, G. (2007). Bayesian Ranking of accident sites *Journal of the Royal Statistical Society, Series A* 170, 1001-1017
37. Nikoloulopoulos, A.K. and Karlis, D. (2008) Fitting copulas to bivariate earthquake data: the seismic gap hypothesis revisited. *Environmetrics*, 2008; 19: 251–269
38. Karlis, D. and Tsiamyrtzis, P. (2008). Exact Bayesian Inference for bivariate Poisson models *Statistics and Computing*, 18, 27-40
39. Karlis, D. and Patilea, V. (2008). Bootstrap confidence intervals in mixtures of discrete distributions. *Journal of Statistical Planning and Inference*, 138, 2313-2329
40. Pavlopoulos, H. and Karlis, D. (2008) INAR(1) Modelling of Overdispersed Count Series with an Environmental Application. *Environmetrics*, 19, 369-393

Invited Talks

- Multivariate Poisson models: Invited talk in the Department of Applied Economics, University of Diependeek, Limburg, Belgium. (23 October 2002)
- Short course on Bayesian Statistics: Department of Applied Economics, University of Diependeek, Limburg, Belgium. (13-14 February 2003)
- An introduction to Bootstrap: short course during the 17th Panhellenic Statistical Conference Lefkada, April 2004.
- Issues in statistical Credit scoring , Norwegian Business School, Bergen, Norway (30 April, 2004)
- Advanced Statistical models in credit scoring. Department of Applied Economics, University of Diependeek, Limburg, Belgium. (May 2004)
- On modelling multivariate count data, Department Of Biostatistics, Katholik Universitair Leueven, April (2005)
- Model Based Clustering for non-elliptical distributions. Invited talk in Dept of Mathematics and Statistics, University of Lancaster, 27 June, 2007
- Treating missing values in INAR model with an application to syndromic surveillance, 18 April, 2008, Center for Statistics, University of Hasselt.
- Statistical modeling for soccer data. Norwegian School of Economics and Business Administration, Bergen, Norway, September 2008
- Missing Data for discrete time series models. 12 December 2008, Dept of Statistics, University of British Columbia, Canada
- “Mixed Poisson Distribution” 18 October, 2009, Department of Statistics and Operational Research, University of Kuwait, Kuwait City.
- “On models for multivariate count data”, February 4th, 2010, University of Barcelona
- “Modeling multivariate time series for counts” on September, 2010, University of Hasselt
- “Multivariate Integer values autoregressive models” on October 2011, University of Laval, Quebec city
- “Composite Likelihood methods for discrete valued time series” on October 2011, University of Quebec at Montreal,
- “Modelling multivariate time series for counts”, on March, 2012, University College London.
- “On multivariate time series for counts”. on March, 2012, University of East Anglia, UK.

Other

- Erasmus Scholarship for University of Sheffield, Departments of Probability and Statistics (January – April 1992)
- Scholarship from Greek Scholarship Foundation for Phd research in Applied Statistics (1993-1998)

Memberships

- Member of the American Statistical Association
- Member of the International statistical Institute
- Member of the International Biometric Society Eastern Mediterranean Region
- Member of the Greek Statistical Institute

Organizing Committees

- Member of the Organizing Committee of the 17th Workshop on Statistical Modelling in Chania (July 2002)
- Member of the Organizing Committee of the 17th Greek Statistical Conference in Lefkada (April 2004)
- Member of the Organizing Committee of the 3rd EMR-Biometrics Conference in Kerkira (May 2005)
- Member of the Organizing Committee of the ISCB conference in Alexandroupolis (July 2007)
- Member of the Organizing Committee of the 6rd EMR-Biometrics Conference in Crete (May 2011)

Phd Committees

- Member of the jury of the Ph D presentation of Tom Brijs, Limburg Univeristy, Belgium.
- Member of the jury of the Ph D presentation of Vealous Arakelian, Athens University of Economics Greece
- Member of the jury of the Ph D presentation of Liu Feng, Univeristy of Hasselt, Belgium. (2007)
- Member of the jury of the PhD presentation of Ms Sonia Malefaki, University of Peireaus, Greece (Septmeber 2008)
- Member of the jury of the PhD presentation of Mr Kostas Fragiadakis, Athens University, Greece (September 2009)
- Member of the jury of the PhD presentation of Mr Shaochuan Lu, School of Mathematics, Statistics and Operations Research, Victoria university of Wellington, New Zealand
- Member of the jury of the PhD presentation of Mr Panagiotis Papastamoulis, University of Peireaus, Greece (September 2010)

Editorships

- Associate Editor for Metron journal (2007-)
- Associate Editor for Communications in Statistics (2008 -)
- Associate Editor for IMA Journal of Mathematics in Management (2009 -)
- Associate Editor for Stochastic Environmental Research and Risk Assessment (2012-)
- Editor (elected) of Biometrics Bulletin (2013-)

Other

- Reviewer για το *Zentralblat MATH* (23 reviews) .
- Visitor in Limburg University, Belgium (January- February 2003)
- Invited Speaker in the TRB2006 conference, Washington DC, Session of time series
- Publicity Officer of the EMR-IBS (2007-2009)
- Visitor, institute of Transportation, Hasselt University (February – June 2008)

Thesis supervised

PhD Thesis

Completed

1. Nikoloulopoulos, A.K. (2007) Applications of copula function in statistics.
2. Pedeli X. (2011) Multivariate time series models for count data

Ongoing

1. Poulouliou, S. (2008 -) Issues on clinical trials
2. Orfanogiannaki, K. (2008-)
