Information Management: A Proposal

Information Management: A Proposal

Abstract

This proposal concerns the management of general information about accelerators and computers at CERN. It discusses the problems of loss of information about complex evolving systems and derives a solution based on a distributed hypertext system.

Keywords: Hypertext, Computer conferencing, Document retrieval, Information management, Project

INTERNATIONAL BESTSELLER!
CREATING KILLER WEB SITES
Second Edition
The Art of Third-Generation Site Design
David Siegel
The best-selling book on the web, now updated for Netscape Navigator and Internet Explorer 4.0!

“ ‘Killer Web Sites’ are usually those which tame the wildness of the web, constraining pages as if they were made of paper – Desktop Publishing for the Web.”

—John Allsopp
A Dao of Web Design

“The web is a new medium, although it has emerged from the medium of printing, whose skills, design language and conventions strongly influence it. Yet it is often too shaped by that from which it sprang.”

—John Allsopp
A Dao of Web Design

EACH NEW MEDIUM BEGINS ITS LIFE BY IMITATING ITS *PREDECESSORS*. MANY EARLY MOVIES WERE LIKE FILMED *STAGE PLAYS*, MUCH EARLY *TELEVISION* WAS LIKE *RADIO WITH PICTURES* OR *REDUCED MOVIES*.

Zen Garden

The Beauty of CSS Design

A demonstration of what can be accomplished visually through CSS-based design. Select any style sheet from the list to load it into this page.

Download the sample html file and css file

The Road to Enlightenment

Littering a dark and dreary road lay the past relics of browser-specific tags, incompatible DOMs, and broken CSS support.

Today, we must clear the mind of past practices. Web enlightenment has been achieved thanks to the tireless efforts of folk like the W3C, WaSP and the major browser creators.

The css Zen Garden invites you to relax and meditate on the important lessons of the masters. Begin to see with clarity. Learn to use the (yet to be) time-honored techniques in new and invigorating fashion. Become one with the web.

World Wide Web

The WorldWideWeb (W3) is a wide-area hypermedia information retrieval initiative aiming to give universal access to a large universe of documents.

Everything there is online about W3 is linked directly or indirectly to this document, including an executive summary of the project, Mailing lists , Policy , November's W3 news , Frequently Asked Questions .

What's out there?
: Pointers to the world's online information, subjects , W3 servers, etc.

Help
: on the browser you are using

Software Products
: A list of W3 project components and their current state. (e.g. Line Mode ,X11 Viola , NeXTStep , Servers , Tools , Mail robot , Library)

Technical
: Details of protocols, formats, program internals etc

Bibliography
: Paper documentation on W3 and references.

People
: A list of some people involved in the project.

History
: A summary of the history of the project.

How can I help ?
: If you would like to support the web..

Getting code
: Getting the code by anonymous FTP , etc.

Bagcheck

About Bagcheck

Whether it's cooking, photography, parenting, or sports —we all have a set of favorite items for doing what we love. Bagcheck is a fun and easy way to share these sets of items with people you know or share interests with.

Share What You're Using & Why

Bagcheck bags are personally assembled collections of items that give you an inside look at what people are using and why. You can search, browse, or quickly create bags about favorite hobbies or activities, the things you keep using over & over, and more.

Discover New Items You'll Love

You'll be amazed at the variety of useful items your Bagcheck friends share and discuss. Get

O2-UK 14:52

Interested in More?

We're currently in limited beta mode. You can join us if one of your Facebook friends is already an active Bagcheck user.
