

SPOT MOBILE

Extend the reach of your CRM to your organization's workers and the people it serves, anytime, anywhere.

Spot Mobile platform

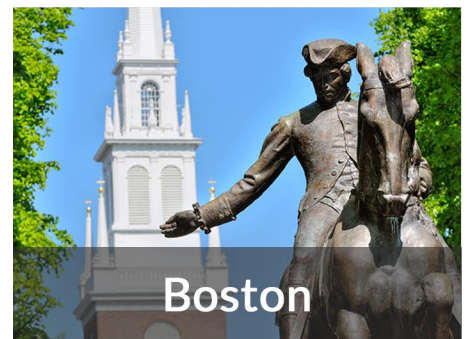

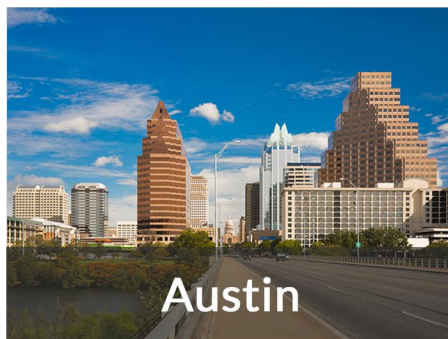

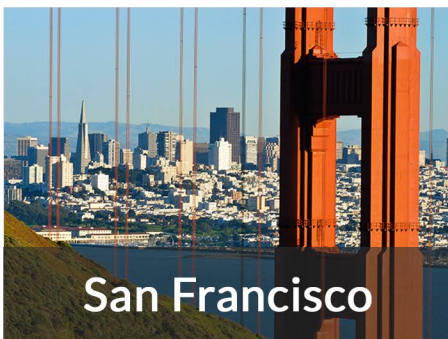

Real-time interactions between customers, CRM, and field workers

Spot Reporters

Spot Workers

As seen in these innovative cities

From the team that brought you Street Bump, and as seen in

“It helps the city crowdsource the greatest concerns of the community.”

Katie K., San Diego

What does Spot Mobile work with?

Our APIs can be used to integrate seamlessly with just about any system.

Our platform is built with modern technologies and security best practices.

And more!

Best in class usability

Report issues in less than 90 seconds without having to place a call.

Real time

Sift through millions of records using Live Views with faceted filtering.

Works off-line

Field workers caught in an area with poor network coverage can still access their tasks.

“Calling feels like complaining, reporting feels like helping”

Heather S., Boston

One Hardy Road, Suite 208
Bedford, NH 03110
