Graduate School of Governance Studies
Meiji University

Date

2024.12.11 Wed.

1:30 p.m. - 3:10 p.m.

Venue

-**Face to Face: 309D, 9th floor Academy Common**
-**Online: register with QR code**

Title

Security, cybersecurity and artificial intelligence

❖ **Speaker**

Dr. DHIEGO TELES DA SILVA
Lecturer, Nimes University

Research Field

Law and Artificial Intelligence

Since the emergence of artificial intelligence tools, the legal field has been confronted with numerous challenges. It is necessary not only to understand the ethical and legal framework in which these tools can be used but also to analyze how legal practice will change with the introduction of AI models trained with legal data. His research focuses on cybersecurity, predictive justice, ethics, and the creation of legal AI tools.

Coordinator Prof. KIMURA Shunsuke
Graduate School of Governance Studies
