Dear Sir,

Professor B. Monjardet, told me that you are
working toward a new edition of your Handbook of
Integer Sequences.

You will find enclosed a copy of our paper "
Dénombrement des quasi-ordres sur un ensemble fini", with J. LEHAIRE
and J. POUGET, published in Mathématiques et sciences Humaines, n° 62,
1978, pp. 61-80., and a short abstract in english: "Enumeration of
semiorders on a finite set" You might consider this material for inclusion
in your new edition

Sincerely Yours

Prof. J. L. CHANDON
