[“ FAQ boundaries back to do list ”](#)

☆ request info!! :

i do: mainly reentry graphics, i will also do tumblr layouts, imvu badges (shiny buttons), tumblr / reentry dividers, userboxes, userbars, blinkies and stamps too

i don't do: name pronoun title packs / id packs (dunno the difference), flags

☆ my rules :

if you request from my whitelist you are more likely to get a better result than giving me a source i dont know!

if my requests are closed your requests will be deleted/denied until they're open again, **please don't send reqs when they're closed!!**

please be specific if you have anything in mind (like what colour, what character + *what media they come from*, what kind of style you're going for, etc) i would rather you be specific than vague, i'm not a mind reader and i don't want to dissappoint!

i get overwhelmed easily and get burnout pretty fast so please be understanding if i decline / ignore your requests or are slow to get to them

i will use official art unless requested otherwise with your fanart in mind, please add credits to the artist when you send a fanart req!

please don't suggest media that barley has any official art / content, it's hard to work with

i have a right to ignore / delete any request if i'm uncomfortable with editing it!

rules for requesting shiny buttons / imvu badges:

two button requests maximum

please request with the name and colour you'd like

if you want a specific symbol on yours please tell me! if not i'll just do what fits

☆ whitelist :

(i will happily do these)

☆ **loves to edit:** genshin impact*, danganronpa (esp sdr2 and drv3, thh is good too but i just prefer the other two), project sekai, cherry crush, horimiya, needy streamer overload

☆ **likes to edit:** toilet bound hanako kun, vocaloid, doki doki literature club, omori, my dress up darling, sanrio, ever after high, monster high, the case study of vanitas, demon

slayer, my little pony (friendship is magic + equestria girls),
cookie run kingdom (only characters i know, which would
be 2020-2021 characters), saiki k, zom100

☆ **will edit because my partner likes them: their list!**,
will also edit honkai star rail

. . any other media that's not on the blacklist is fine but *i
would prefer if you suggested things on my white list*
though
*and be super specific on what you want it to look like if you
don't i'll just go by the looks of the character*

☆ **notes :**
*if i'm editing sumeru or natlan characters, i will edit their
official art to give their melanin back

☆ **blacklist :**

(i will not do these)

☆ **media :**
any full nsfw media, boyfriends webtoon, animal crossing,
pokemon, dragon ball z, country humans, spiderman /
spiderverse, killing stalking, **picky** with helluva boss and
hazbin hotel
*some of these are just for my personal comfort, i'm not
saying if you like these then you are bad!*

i will not edit any extremely problematic media that
fetishizes dark themes either

☆ **characters :**
shinso hitoshi (my hero academia)
jimmy (mouthwashing)
valentino (hazbin hotel)
dori (genshin impact, unless you find good fanart of her
that's not orientalist)
chasca, ororon (genshin impact, unless you find good fanart
of them that is culturally correct)
makima (chainsaw man)

☆ **notes :**
i'm not going to edit any character in distress or going
through anything traumatic even though it's fiction, it
makes me uncomfortable to be making something
aesthetic from that

won't edit ships i'm uncomfortable with, i'll let you know if
i'm uncomfortable with it

i will not do horror / gore / medical themed requests, a little
bit of blood (eg: like some on the face) is okay with me
though

picky about live action sources
