These essays explore that in some depth.

Nostalgia as a Mode of Reflection in the Autobiographical Narratives of Joseph Conrad and Henry James

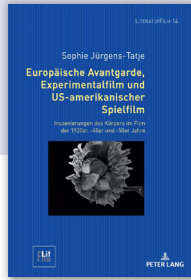

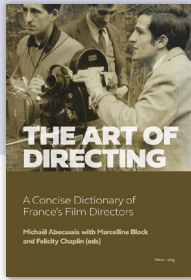

Within the past decades, nostalgia has become a misleadingly familiar concept. Whereas popular nostalgia connotes an idealised memory of the past, nost/algia implies a novelty of approach by focusing on the distinction between 'nostos' (the return) and 'algos' (the pain). Discussed with a reference to the pastoral and the Odyssey, the present study examines certain 'complex' deployments of the mode as applied in several autobiographical narratives of two ex-patriate writers, Joseph Conrad and Henry James. The book first traces the history and theory of autobiography and nostalgia. Second, it interprets the nostalgic tensions as complex structures of thought which prompt certain inferences about the writers' respective attitudes towards the world and their inner selves.

Der Körper steht in den 1920er Jahren häufig im Zentrum der Filmproduktion. Im europäischen Avantgardefilm bildet sich ein großes Facettenreichtum an Körperinszenierungen aus. Unter besonderer Beachtung der Aspekte Intermedialität und Genderdarstellung wird dieses untersucht. Experimentalfilme der 1940er und -50er Jahre erweitern den Vergleich.

Das Täterbild in der Überlebenden-Literatur

Ein Vergleich der Täterbilder in der frühen und späten Lagerliteratur von Buchenwald und Dachau. 2. Auflage, 2. Ausgabe

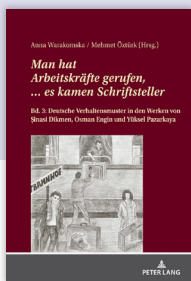

In den beiden Erinnerungsphasen sind die Täterbilder oft mit individuellen Bezügen zu Tätern verbunden und emotional aufgeladen, die keinesfalls mit der «Banalität des Bösen» zu assoziieren sind. So eröffnet die literaturwissenschaftliche Auseinandersetzung mit den Überlebenden-Zeugnissen einen neuen Blick in der interdisziplinären Täterforschung.

Michael Scotus und sein "Buch von den Bildern und Zeichen des Himmels"

Kaiser Friedrich II. und sein Astrologe Michael Scotus haben vor allem die deutsche Forschung seit Generationen fasziniert. Allerdings steht das Ausmaß der Faszination oft im umgekehrten Verhältnis zu gesichertem Wissen. Dieses Buch unternimmt im ersten Teil den Versuch einer Neubewertung der bekannten Quellen, während der zweite Teil paradigmatisch den Liber de signis et imaginibus celi untersucht, jenen illustrierten astrologischen Traktat also, der neben dem Liber Physionomie Michaels erfolgreichstes Werk darstellt und im Laufe der Jahrhunderte immer wieder abgeschrieben, übersetzt und in textlichen wie bildlichen Auszügen tradiert wurde – und der hier erstmalig ediert und übersetzt ist.

German Colonialism in Africa

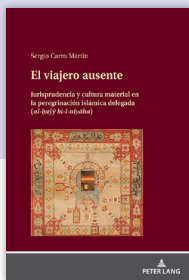

In this volume, six experts from Europe and Africa present new insights from the field about various aspects of Germany's colonial rule in Africa, raising doubt about the hitherto interpretations of some important events. The outbreak of violence in Rwanda 1904 was neither an anti-colonial Hutu uprising nor the result of a royal court intrigue against German rule, but instead a response to raids, the White Father missionaries had carried out against the local population. German colonialism in Rwanda was much less benevolent than it is today recalled in Rwanda, because its main edge was directed against the population in the North whose collective memory has been marginalized in the royal abanyiginya narrative, under colonial rule and after the genocide. Other chapters deal with the link between colonial boundaries and ethnic conflict and the counter-intuitive consequences of the German/Namibian settlement about colonial atrocities against the Herero and Nama.

Les relations monétaires franco-allemandes et l'UEM (1969-1992): des ambitions aux réalités

Ce livre analyse les relations monétaires franco-allemandes dans le processus de genèse de l'Union économique et monétaire, engrenage économique où la politique cède le pas à l'économie. L'Allemagne et la France nourrissent des ambitions distinctes. La stabilité monétaire est acquise alors que s'éclipse l'idée d'une Europe maîtresse de son destin.

Glossar zur Geschichte der mittelalterlichen Stadt

Dieses Glossar bündelt die sprachlichen Besonderheiten der städtischen Kultur des Mittelalters erstmals in zentraler Form. Hierbei wird das Siedlungsphänomen Stadt in vierfacher Hinsicht definiert und erschlossen: Hinsichtlich seiner Rechtsnatur und Verfassung, seiner architektonischen Gestaltung, der Wahrnehmung zentralörtlicher Funktionen sowie seiner sozialen Gruppen und Strukturen. Das Untersuchungsgebiet umfasst die Städte des mittelalterlichen Reichsgebiets in seiner gesamten Ausdehnung diesseits der Alpen. Erfasst werden sowohl die mittellateinischen als auch die mittelhoch- und mittelniederdeutschen Vokabeln, die zudem durch aussagekräftige Zitate in den Kontext eingebunden werden.

Die Herren der Hanse

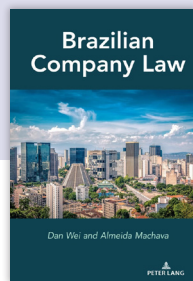

Delegierte und Netzwerke

Was war die Hanse? Ein Städtebund? Diese Untersuchungen betrachten die «Städtehanse» unter einem neuen Aspekt und kommen zu einer anderen Antwort auf diese seit hundert Jahren strittige Frage. Im Mittelpunkt stehen die Ratsherren, die als Delegierte Städte auf dem Hansetag vertraten und die hansische Politik bestimmten. Es zeigt sich, dass diese Herren nicht an erster Stelle auf die Interessen einer Stadt verpflichtet waren. Sie waren verwandtschaftlich und geschäftlich mit führenden Kaufleuten und Ratsherren in anderen Städten verbunden. Auf Hansetagen trafen sie enge Geschäftspartner und Verwandte wie Cousins, Schwäger, Onkel oder sogar Brüder, die als Delegierte anderer Städte auftraten. Die (handelspolitischen) Interessen dieser städteübergreifenden Netze vertraten die Delegierten auf den Versammlungen....

Food as Communication / Communication as Food

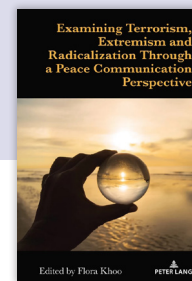

From high-tech kitchen gadgets and magazines to the Food Network, the last few decades have seen a huge rise in food-focused consumption, media, and culture. The discourses surrounding food range from media coverage of school lunchrooms and hunger issues, to news stories about urban gardening or buying organic products at the local farmers market. Food is no longer viewed merely as a means of survival. International and comprehensive in approach, this volume is the first book-length study of food from a communication perspective.

Dorota Leszczyna

Relaciones intelectuales entre Nicolai Hartmann y José Ortega y Gasset en los años 1906-1914

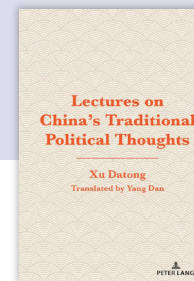

„En este libro, Dorota Leszczyna llena un hueco profundo en nuestros conocimientos de la evolución de la historia de la filosofía de Ortega y Gasset. Existe en el orteguismo la tendencia a saltar a la absorción por Ortega de la fenomenología de Husserl, cuando este salto está mediado por la intervención de los neokantianos de Marburgo y sus discípulos. Sostiene la Prof. Leszczyna que el discípulo de Ortega Nicolai Hartmann aclara la recepción orteguiana del neokantismo marburgués y de la fenomenología....
