Today, the United States seems to be taking a leading role in anti-globalization. What impact will this have on the future of globalization and the development of the world economy? How should developing countries respond to the changes? This book systematically collates and analyzes China's unique development model while reflecting on China's challenges and countermeasures in the face of the globalization crisis. The author shares his in-depth thinking on many trending issues such as technological innovation, green development, financial reform, international cooperation, and China's foreign relations.

This academic monograph provides a theoretical analysis of China's "Belt and Road Initiative" (BRI) from the perspective of economics and aims at providing an encyclopedic understanding of the BRI to the international community. It not only describes the status of the BRI construction, but also formulates development proposals.

Prickings (Einstiche) haben die Textspiegel mittelalterlicher Manuskripte vorbereitet. Das weiß man seit knapp 100 Jahren. Mit Hilfe von Prickings wurden aber auch Bilder konzipiert. Das weiß man, seit der Autor seine Dissertation veröffentlicht hat (2017). Im vorliegenden Werk analysiert er nun mit einem computer-basierten Ansatz Texte und Bilder aus den vergangenen 3500 Jahren. Die Bilder in diesem Buch dokumentieren das Ergebnis: das Prinzip der konzeptionellen Stiche. Si communiquer est aujourd'hui pour les scientifiques une injonction, ce livre a pour ambition d'explorer les arcanes des processus éditoriaux, communicationnels ou de vulgarisation, et de mettre en lumière les évolutions de cette activité inhérente aux sciences. La communication s'est ainsi, au fil du temps, codifiée, normalisée.

This book covers forty years of press coverage from selected English and German newspapers; it offers a perspective on how the German press covered the World Cup final of 1966 and how these papers reacted to the jingoism displayed by the English tabloids and embeds this into the wider Anglo/British-German relations.

Leistungsverpflichtungen des Arbeitgebers bleiben im Betriebsübergang grundsätzlich bestehen. Eine konkludente Beschränkung der Leistungszusage kommt regelmäßig nicht in Betracht. Je nach dem, ob eine Zusage Unternehmensbezug hat, kann Unmöglichkeit bzw. der Wegfall der Geschäftsgrundlage zum Verlust des Anspruchs gegen den Betriebserwerber führen.

Moravia served as a testing ground for Cisleithania's "personal national autonomy." The 1905 Moravian Pact aimed to ease national conflicts by dividing the population into intermingled yet administratively distinct, semi-autonomous national groups. However, defining and demarcating these groups posed challenges.

This book deals with consensual mechanisms in criminal proceedings analyzed comparatively. It addresses the common systemic foundations of negotiated justice and most up to date supranational trends in its development. Through examples of Poland, Germany and Brazil it also presents its universal phenomenon outside the common law systems.

The monograph presents models of free pre-litigation legal aid from a comparative perspective, taking into account, on the one hand, the theoretical and legal basis for the functioning of free pre-litigation legal aid, and on the other hand, the practical aspects of its implementation using the example of Sweden, United Kingdom, Ukraine and Poland.

Harmony Notes: Book 2, is a natural follow on from *Harmony Notes: Book 1*. The vocabulary is expanded to encompass dissonant decoration, modulation, secondary 7ths and an exploration of Classical chromatic harmony. Clear uncomplicated explanations of each topic accompanied by aural examples are central to the conception and design. At every stage the aim is to foster a musical understanding and encourage a holistic approach – emphasising the necessary link between sound and symbol.

Ce livre examine dans quelle mesure leurs champs, leurs objets d'étude et leurs méthodes interagissent ou s'attirent mutuellement. Cette invitation implique un dialogue entre, d'une part, la sociocréditique telle que l'envisage Edmond Cros, et d'autre part, ce qui est appelé « le tournant décolonial » amorcé depuis trois.

This book is an ethnographic study on the Han Chinese and cross-border ethnic tribes of Yunnan origin who left the Yunnan Province and migrated to northern Thailand via Myanmar. It explores the political and cultural dimensions related to these people's escaping from one country and submitting to another country.

In Archerian Studies, we pay special attention to studies in the area of critical realism paradigm. Despite the numerous motifs which were introduced to the discourse pertaining to Margaret S. Archer's concept, we see that some repeat here constantly.
