### Editorial Policy

This Environmental Sustainability Report marks our fifth year of publication. We put this report together with the intention of making it easy to read, easy to understand and something to facilitate your understanding of Tokyo Electron (TEL)'s efforts in FY2004 in the areas of the environment, health and safety, as well as our social contribution activities. Here our president and CEO has also explained in his own words the view we take of CSR (Corporate Social Responsibility). We would like to enhance communication with all individuals engaged with TEL through this report. We welcome your comments and opinions so that we may reflect them in our future editorial policies.

We have referenced the Environmental Reporting Guidelines (2003), published by the Environment Ministry, and the 2002 Sustainability Reporting Guidelines, published by GRI (Global Reporting Initiative), an organization that formulates international sustainability report guidelines, in creating this report.
